APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,

and do hereby grant the same, subject to the following limitations and

This permit is issued subject to all existing rights on the conditions: source and with the provision that the waters of Chin Creek will be conveyed through Antelope Valley to the place of use in a pipe line and that the collection works at the place of use must be located off of the Antelope Valley Wash channel with adequate dikes and diversion works to prevent any inflow from Antelope Valley runoff water. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of cattle served from the waters of this source. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

The amount of water to be appropriated shall be limited to the amount

which can be applied to beneficial use, and not to exceed 1.0 c.f.s.

cubic feet per second, or sufficient water to water 400 head of cattle, & 2500 sheep.

Actual construction work shall begin on or before January 22, 1961

Proof of commencement of work shall be filed before February 22, 1961

Work must be prosecuted with reasonable diligence and be completed on or before January 22, 1962

Proof of completion of work shall be filed before February 22, 1962

Application of water to beneficial use shall be made on or before

January 22, 1964. Proof of the application of water to beneficial

use must be filed with State Engineer on or before February 22, 1964
